

An Evening Talk

All About Dogs!

Tuesday 3rd June
Overseal Village Hall,
Woodville Road, Overseal, Swadincote, DE12 6LU

If you love dogs, you'll love this talk. Full of really useful information, you'll learn how to reduce your vet bills by keeping your dogs healthy for many years to come.

- Did you know that the World Small Animal Veterinary Association does NOT recommend annual vaccination?
- Did you know that whenever you take your dog for an annual shot, you are putting him needlessly at risk?
- Has your vet ever told you that unnecessary shots can cause a whole range of diseases, including cancer, leukaemia, epilepsy, skin disease, arthritis, brain damage and even death?
- Did you know that many illnesses start within three months of a vaccination?
- Do you know what's in your dog's processed food?
- Would you like to know how to feed your dog real food – food that promotes long life and good health?
- Did you know that there is a worldwide movement to help dogs live long and happy lives, and that naturally reared dogs thrive?

Join Catherine O'Driscoll for an evening talk, and be prepared to have your world changed for the better. Catherine is the founder of Canine Health Concern, a non-profit animal welfare organisation which shares information about naturally healthy dogs.

She is the author of best-selling books, *Shock to the System*, and *What Vets Don't Tell You About Vaccines*. Her film, *In Search of the Truth About Dogs*, was awarded Best DVD by the Dog Writers' Association of America, and she has lectured on canine health in the UK, Europe, and North America. Catherine writes for *Dogs Naturally* magazine, *Raw Instincts* magazine, *Dogs Today*, and many other dog titles, and her work was featured in a prime-time TV documentary *World in Action*. She has appeared many times on radio in the UK and North America.

Tickets and details are available from Brenda Thorpe. Tel 01283 732760,
